

**Expression of interests for subcontractor
launched by the
EU ERASMUS+ Project A.U.T.O. 4.0
ADDENDUM**

In order to allow all partners to participate in the Technology Roadmap learning activity, the implementation period mentioned in the paragraph of "Call for Expression of interests for subcontractor launched by the EU ERASMUS+ Project A.U.T.O. 4.0" called "Duration, Required Date and Location for Classroom-Based Training" could be postponed.

Consequently, the paragraph called "Duration, Required Date and Location for Classroom-Based Training" is modified as follows:

Duration, required date and location for classroom-based training:

The training activity will have a total duration of 40 hours (five consecutive days). The training will take place in Lanciano (Italy) on October or November 2017. The dates will be communicated to the selected provider by 22 September 2017.

In case of unexpected events, the coordinator reserves the right to change location and the dates of the training. If this should be necessary, the new location or new dates will be communicated to the trainer(s) at least 5 days before.

This addendum is an integral part of "Call for Expression of interests for subcontractor launched by the EU ERASMUS+ Project A.U.T.O. 4.0"
